

ORCID LIFESTYLE AUSTRALIA

iD

ONCE UPON A TIME (BACK IN 2015)

Researchers in Australia were registering for ORCID iDs

Australia saw the need for a National ORCID approach and formed a working group

The working group identified a Consortium Lead (AAF) and developed a Consortium Model

REGISTER FOR ORCID

The working group encouraged researchers to register for an iD but knew that Australia needed to do more

2016

Australian ORCID Consortium launched

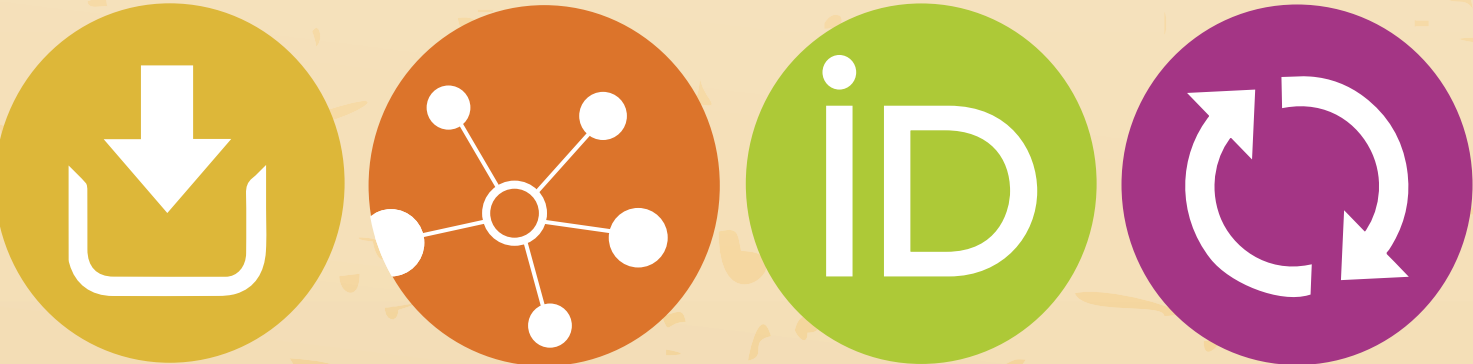

Support was available for all Consortium Members

ASK MELROY!

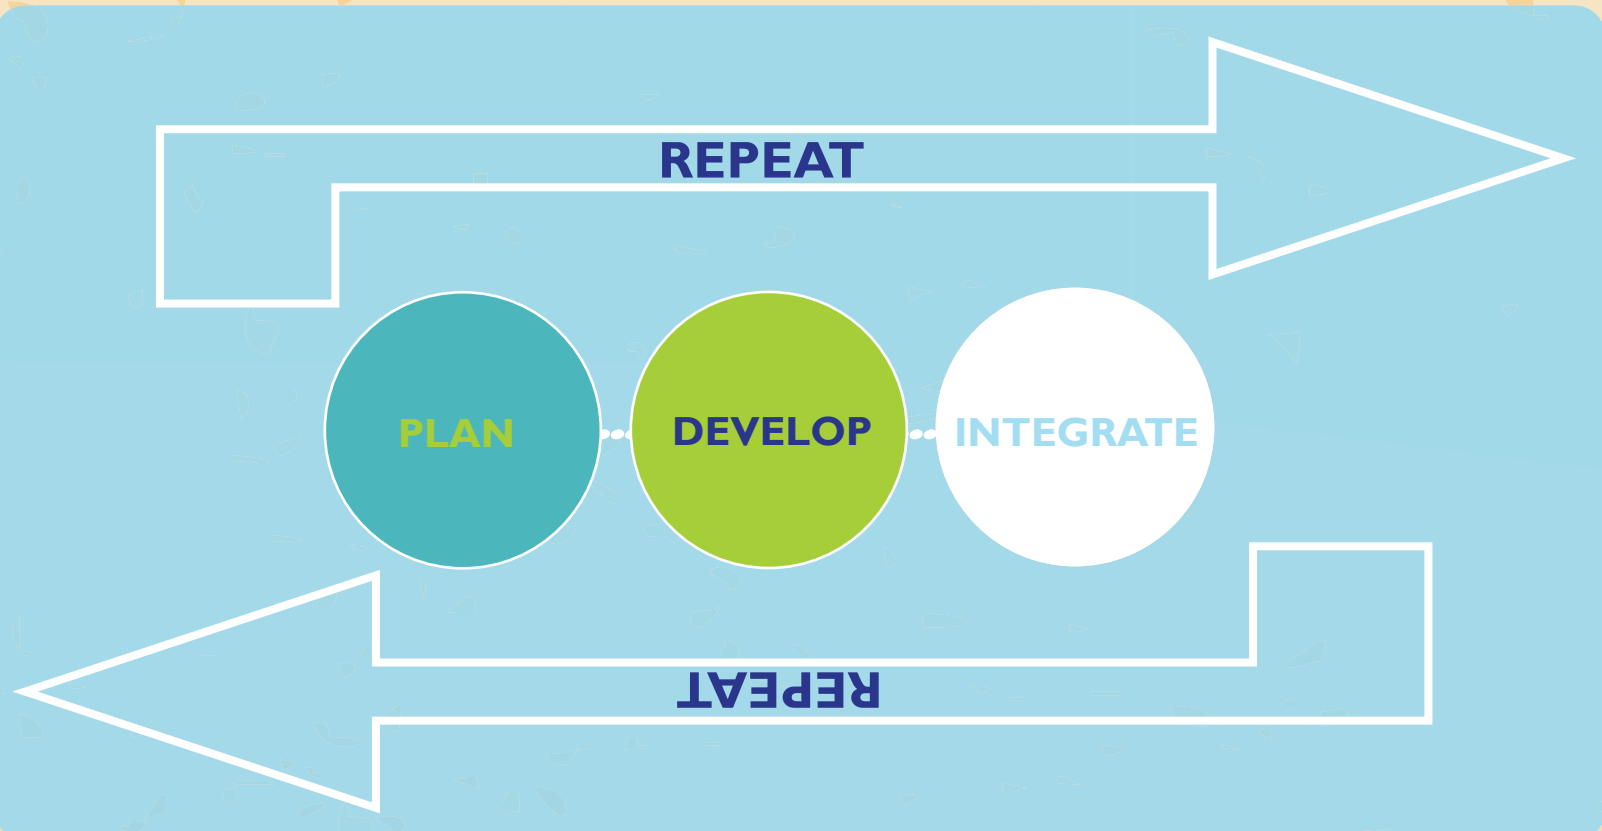

Member organisations integrated ORCID with more & more of their systems

Member organisations started to plan integrations with their systems

Members were awarded Collect & Connect badges

Researchers now know more about ORCID & have affiliations with member organisations
