

What is Rapid Identity Provider?

Rapid Identity Provider (Rapid IdP) is the Australian Access Federation's (AAF) hosted service that provides a fast and easy way to connect to the AAF. Rapid IdP caters for organisations of all sizes and connects users to hundreds of national and international services.

Focus on the work that matters to you and let AAF manage the rest.

How it works

The AAF hosts and manages your organisation's connection to hundreds of education and research services.
